Thursday, November 5, 1789.

The House met.

Mr. Rodgers returned and took his seat.

Mr. Witherfpoon from the Committee, appointed to take into consideration the
the present state of the Paper Money of this State, and the most probable means of raising the Value thereof; reported that the Committee are of Opinion the best and surest way of raising the Value of the Money, is by lessening the Quantity in circulation, and therefore propose the following method:

1st. That the Treasurer be directed to pay up five Years Interest on all Loan-Office Certificates, and four Years Interest on other Continental Certificates on which Interest has been paid in part by £.m, and that the remainder of the Money collected from the Revenue Tax, after affecting the above purposes all be cancelled. The Committee estimate that about £. 20,000 will be sufficient for the payment of the Interest as abovementioned, therefore there will remain £. 11259 5 0 to be cancelled.

2d. That as Congress have provided for the payment of the Invalid Pensioners, the Money appropriated by this State for that service shall likewise be cancelled after paying up the Pensioners to the first Day of March next, by which the Committee estimate that about £. 4000 will be destroyed.

The Committee further observe, that £. 5605 18 8 the Interest of the Loan-Office Money, will by the Laws now in force be paid in and cancelled by the first Day of January next, that it appears by the Treasurer’s Letter of Yesterday, that the Sum of £. 6567 14 3 of the Principal of the Loan-Office Money has been paid in and cancelled, and it has been before stated to the House, that £. 1345 Money unappropriated has been likewise cancelled.

The Sums therefore estimated to be drawn out of Circulation will be as follows:

<table>

The Committee further observe, that it is probable a considerable Sum of the Principal of the Loan-Office Money will be paid in and cancelled before the first Day of January next, which with the Sum left in Circulation, it is probable will by the Adoption of the present Plan, reduce the Sum remaining in circulation on the first Day of February next to less than £. 100,000.

The House adjourned to three o'clock, P. M.

The House met.

The Speaker laid before the House, a Letter from James Mott, Esquire, in the following words:

"Pertb-Amboy, November 6, 1789.

S I R,

By a resolution of the Honorable the Legislature of the 22d November 1788, I am directed to issue a Certificate to Archibald Mercer, Assignee of Paul Schenck, for the Sum of £ 195 being a Debt adjudged to be due from the Confiscated Estate of Joseph Allen to the said Paul Schenck, which Certificate is to be issued agreeably to a Law passed December 23d 1783, which said Law requires me to take duplicate Receipts on the Mortgage, and file the same in the Treasury Office; and as the above said adjudged Demand in favor of Paul Schenck, is in Part on a Mortgage from Abraham Schenck, to the said Paul Schenck, which said Mortgage contains other demands against the said Abraham Schenck, and other Lands are thereby secured for payment thereof, therefore Mr. Mercer requests me to apply to the Legislature for leave on issuing said Certificate, after taking duplicate Receipts on the Mortgage agreeably to said Resolution, to return him said Mortgage to enable him to recover the other Debts thereby secured.

I would also mention, that difficulties are made in some Counties, relating to recovering the Money collected for Taxes out of the hands of the Sheriffs; they say that the Town and County Collectors have no right to prosecute said Sheriffs for neglect of Duty, or for the Money in their hands which is payable to them at their Suits, but that it is the Treasurer's duty to prosecute said Sheriff. To me it appears very absurd, that the Treasurer should be required to prosecute the Sheriffs for neglect of Duty, when the Suit is commenced by, and the Money when recovered is payable to the Collector; the Law directs that the Town and County Collectors are to prosecute Delinquents to effect, but as that part of the Law relating to prosecuting Sheriffs is not so explicit as the other parts, I with it was more fully explained.

I have also to observe, that there is about Forty Thousand Pounds of the Taxes, that were ordered to be raised in Specie in the Year 1782 and 1783, payable to
to the Continental Receiver now outstanding, and as James Ewing, the present Receiver, refuses to prosecute any of the Collectors who are deficient, and they neglect to pay, whereby the Money is liable to be lost, and whether it would not be proper for the State to appoint some Person to receive said Arrearages of Taxes, and where necessary, to prosecute for the same, and when Received, to pay it to said Receiver of Continental Taxes.

I beg leave also to mention, whether it is not necessary that some Person should be authorized with discretionary Power, to purchase for the State at Sheriff's Sale, made at the Suit of the State, where the State has no other remedy to prevent the property being sold for a Trifle, and the State thereby lose the Debts,

And am Sir, with due respect,
Your obedient humble servant,
JAMES MOTT, Treasurer.

Ordered, That the first Paragraph of the said Letter, be referred to Messrs. Marsh, Nicoll and Wade, to whom was referred the Petition of Benjamin Morgan.

pers are not here now. Your Committee therefore suggest the propriety of referring the said Petition to the next Sitting.

Ordered, That Mr. Outwater do carry the said Resolution to the Council for concurrence.

A Petition from William Leddle of the County of Morris was read, desiring that the Legislature would reject the Prayer of the Petition of Joseph King, presented the third instant; whereupon,

Mr.
Mr. Condit from the Committee to whom the Petition of the said Joseph King was referred, brought in the following report:

That they find in Book 8. 5, page 296, that a Survey of Twenty-nine Acres, and Ninety-six Hundredths of an Acre, with the usual allowance for Highways was made by Thomas Milledge in his own right, at the request of Joseph King, in the Year 1766, which Land said King claims, and pleads payment in part of £. 5 6 o by his Account of equal date with the Survey, and that he never received a Deed, why a Deed was not given him previous to said Milledge's joining the Enemy in the late War, which appears to have been nine or ten Years after the said Survey was made, is to your Committee unknown; we are further informed, that the said abovementioned has already been Sold as the property of the State by the Agent of Forfeited Estates for the County of Morris, all which Documents and Circumstances as above stated, being duly considered, are not sufficient in the Opinion of your Committee to support the Facts set forth in the Petition, or induce the House to grant the Prayer thereof.

By order of the Committee,

John Condit.

Mr. Outwater reported that he had obeyed the order of the House.

A Message from His Excellency the Governor by the Secretary, was laid before the House in the Words following:  

Perth-Amboy, 13th November 1789.

"GENTLEMEN,

The present mode of examining Witnesses in Causes depending in the Court of Chancery of this State, is not only exceedingly Expensive, but not so well calculated for the investigation of the Truth as that which is used in every other of our Judicatories which is in open Court, and in the presence of both of the Parties litigant.

1st, As to the Expence.

1st, The Witnesses in the Court of Chancery, are all examined upon Written interrogatories, previously filed with the Examiner, both by the Complainant and Defendant, and the Answers of such Witnesses to every Interrogatory are reduced to Writing, not only as to what they can depose in favor of the Party producing them, but also of their non-knowledge of those Facts of which they are ignorant, if concerning such Facts there are any Interrogatories which fearcely ever fails to be the case.

2dly, Cross-Interrogatories are also filed by the adverse Party, that is to say by both Parties, as mutually adverse to each other for the purpose of inducing the Witnesses to declare such Facts as they would not be induced to declare by any of the Interrogatories filed by the Party producing them, and to which the Examiner are officially bound to adhere in questioning them without the liberty of proposing any other question for the further elucidation of the Truth.

3dly, Of such Interrogatories, Cross-Interrogatories, and of the Depositions taken in consequence of them, Copies are made by the Examiner for the Council learned in the Law for each of the Parties.

Hence
Hence it is easy to see to what an enormous Expense most of the Suits pro-
duced in that Court, must inevitably amount, and this in reality is the principal
if not the only cause of that Court's being more Expensive than any other Tribu-
nal in the State.

But for a stronger reason than the one already assigned, this mode of Taking
the Testimony of Witnesses in that Court, appears to me, to require the interpo-
sition of the Legislature; because,

II. It is not so effectual for the discovery of the Truth, as that of examining
the Witnesses in open Court, and in the presence of the Parties, which is the prac-
tice of all our other Judicatures.

III. Because both Parties being present in those Judicatures, the Evidence gi-
gen by a Witness produced by one of them, naturally leads his Antagonist to
crossexamine him, as finally to bring out the whole Truth, which, in the examina-
tions in question, is the more difficult to affect, on account of its being for the
most part utterly unknown by the adverse Party, what the Witnesses will depose
before the Examiner.

2d. From the very countenance and demeanor of a Witness produced in open
Court, not a little may be collected respecting his veracity, as when for instance,
he appears on the one Hand, equally frank to answer all questions proposed by ei-
ther of the Parties, or on the contrary, is very prompt and liberal in his commu-
nications in favor of the Party producing him, but must be so to speak, be wired-
drawn before he will declare any thing to the advantage of the opposite side,
though equally in his knowledge, and equally bound by his Oath to do it, and
consequently thowing a reluctance against declaring the whole Truth, and thereby
proportionally invalidating his Testimony in the opinion of all the Spectators
and Audience.

3dly. From the contrariety of the Evidence given, and which is the natural
result of the present mode of examining Witnesses in Suits depending in the Court
of Chancery it has in some cases been absolutely impossible for the Chancellor to
satisfy himself relative to the Truth of certain Facts of the greatest importance
to the determination of the controversy, and which he has therefore been obliged to
refer to a Master of that Court for further examination, the additional expense
of which reference, is very considerable.

I therefore think it my Duty, Gentlemen, to recommend it to the Legislature,
to abolish the present practice of examining Witnesses in the Court of Chancery,
and to adopt in the room of it, the practice of our Court of Admiralty of examin-
ing them in open Court, and in the presence of the Parties, a proper Officer of the
Court taking down in Writing the substance of the Evidence, in order to prevent
the misrepresentation of it upon the hearing of the Cause, and to refresh the Me-
memy of the Chancellor when deliberating upon his Decree, or that the Legisla-
ture provide such other remedy in the premises, as they in their Wisdom shall
think most conducive to the furtherance of Justice in the said Court.

Wil. Livingston.”

Mr. Witherpoon from the Committee appointed to join a Committee of Council to draw up and report an Address to the President of the United States, reported the Draught of an Address as follows:
To THE PRESIDENT OF THE UNITED STATES OF AMERICA.

THE Legislature of New-Jersey, although fully sensible of the trouble and interruption occasioned by the numerous addresses of congratulation, on your acceptance of the highest office in the Commonwealth, would neither forgive themselves, nor expect the pardon of their constituents, should they neglect in this their first meeting, after the organization of the Federal Government, to express their joy, on seeing you at the head of the United States.

New-Jersey having been the central theatre of the late war, and the scene of some of the most important military operations, which distinguished the American armies, and added new honors to their Illustrious Commander, we are particularly induced to commemorate those brilliant exploit, which while they immortalized your name, afforded peace and security to the Inhabitants of the State.

Adoration, Sir, we are as much indisposed to offer as you can be disinclined to receive; but while we add our voice to that of the world, in celebrating your military achievements, we cannot refrain from acknowledging the attention, which you have always paid to the Laws of the State, and your inflexible perseverance, amidst all the dire necessities of war, in preserving the rights of the citizen to the convenience of the soldier; thus while equal to the most renowned warriors as a Hero, you have proved yourself superior to them as a Citizen.

As New-Jersey was early and unanimous in adopting the Constitution, under which you rule—as every voice called you forth to the office of Chief Magistrate, and every person looks up to it and you for protection, prosperity, and good government, we may, we trust, assure you that the citizens of this State will, to the utmost of their abilities, ever strengthen and support you in the discharge of your high and momentous trust.

We have reason to adore the divine Providence, in raising up for us a Leader and Ruler, so perfectly suited to our situation and circumstances, and sincerely believe, that great and important as your services have been, you will not derive more honor therefrom, than from your humility and self-denial, in modestly ascribing all as you constantly have done, to the power and wisdom of the Most High.

We earnestly pray, that the same kind Providence, which has conducted you with so much honor to yourself, and such unspeakable felicity to the Public, may long continue you a blessing to the United States, in your present important office, and at last crown you with that palm of victory, which is promised to those, who by Divine assistance shall finally prove to be more than conquerors.

Which Address was read and ordered a second reading.

X

THAT in the Opinion of your Committee, in order to promote the purposes of their appointment, it is proper and competent,

1st, That an Act be passed for the more effectual execution of the Laws against Vice and Immorality, which are now in force in this State.

2d, That the execution of the Laws aforesaid, much depends upon the Moral Character of the Persons appointed for that purpose; particular attention ought to be paid by the Joint Meeting, to the Moral Character of Persons about to be appointed Judges of the Pleas and Justices of the Peace; and that too great a number of such Officers, appears productive of a greater number of frivolous and unnecessary Suits, and therefore ought to be avoided; and as the holding of their Courts at Taverns, Inns or Ordinaries, Sums evidently attended with consequences pernicious to Civil Society; your Committee conceive these Evils ought to be prevented by reviving the 5th Section in the Act, intitled, 'An Act to extend the Power of Justices of the Peace, &c.' passed June 5, 1782.

By order of the Committee, JACOB R. HARDENBERGH.

The Auditor further requests, that all Vouchers in the Hands of the Treasurer, respecting payments made to Invalids or Widows, or in the Hands of the Inspector, or the Clerk of the Council or Assembly, respecting the disability or Widowhood of such Pensioners may be delivered to him; and that all Receipts or Vouchers of the delivery of Militia Notes, may be likewise transmitted to him, as they will be necessary to prove the Sums actually paid. The Auditor further informed,
informed, that the Board of Commissioners for settling Accounts between the United States and individual States, have not yet proceeded to business from the absence of one of the Commissioners who is hourly expected, or that from the importance and great amount of the Accounts to be exhibited by this State, the Auditor is very desirous that one or more Commissioners may be appointed to assist him. To the Honorable the Legislature of the State of New-Jersey.

Gentlemen,

In replying to the flattering and affectionate address, with which you are pleased to honor me, I confess a want of expression to convey the grateful sentiments which it inspires; you will do justice to those sentiments by believing that they are founded in sincere regard and respectful esteem.

The opportunities which were afforded me in the trying vicissitudes of our arduous struggle, to remark the generous spirit which animated the exertions of your citizens, have impressed a remembrance of their worth, which no length of time or change of circumstances can efface.

To the galantry and firmness of their efforts in the field, they have added the wisdom and liberality of distinguished patriotism in council, appreciating with judicious discernment, the blessings of that independence which their efforts contributed to establish, they were unanimously agreed to secure and perpetuate them by adopting a constitution which promised equal and efficient protection to the privileges of confederated America.

The assurance now given by your honorable body to support the federal system, is a renewed proof of the estimation in which it is held, and a happy indication of the beneficial effects already experienced and hereafter expected to flow from its operations; as such it is to me peculiarly grateful, and must be so to every citizen of the Union, whose wish is private prosperity and public honor; allow me, gentlemen, to assure you of every endeavor on my part to promote these desirable objects.

In making my acknowledgments for the favorable opinions you express of my military conduct, as it respected the observance of civil right, it is justice to assign great merit to the temper of those citizens, whose editorates were more immediately the scene of warfare; their personal services were rendered without constraint, and the derangement of their affairs submitted to without dissatisfaction: It was the triumph of patriotism over personal consideration, and our present enjoyments of peace and freedom reward the sacrifice. Imploring a continuance of these enjoyments to our country and individual happiness to the citizens who procured them, I offer up a sincere prayer for you, gentlemen, and your constituents.

THAT the said James Board has stated an account of £ 171 6 6 as the amount of a judgment and costs of suit recovered against him as commissioner of confiscated estates, for selling property which he supposed to be forfeited, and which since appears belonged to another person, and that as the said James Board acted in the line of his duty as an officer of this state while selling the property, and as it appears that he has since taken every measure to enquire into the propriety of the demand against him, your committee are of opinion that he should be paid the sum of £ 165 to 0 which it appears to them he has actually expended, and they recommend a resolution of this House, directing the Treasurer to make such payment.

Mr. Witherspoon from the committee appointed to take into consideration the petition for the abolition of Negro slavery, reported as follows:

THAT on considering how the law stands at present on this subject, they find

1. That by the law now in force, the importation of slaves into this state is prohibited, not only from Africa, but from any other part of the world, excepting the actual servants of emigrants from other states or occasional residents.

2. That the exportation of slaves from this state without their own consent, is also prohibited, so that they cannot be sold to such place as to make their condition worse than before.

3. That the law as it now stands, gives great encouragement to the voluntary manumition of slaves.

4. That by the law as it now stands, slaves are protected in their persons against violence, and that not only from indifferent persons, but in case of wanton cruelty and barbarous usage by their masters themselves: That this state might pass a law making all who shall be born in it after the passing of the law, free at a certain age, for example 28 years as is the case in Pennsylvania, but that from the state of society among us, the prevalence and progress of the principles of universal liberty there is little reason to think there will be any slaves at all among us 28 years hence, and that experience seems to shew that precipitaton in the matter may do more hurt than good, not only to the citizens of the state in general, but to the slaves themselves.

On these accounts the committee are of opinion, that it is not necessary nor expedient at this time, to make any new law upon the subject.

In name of the committee; 

JOHN WITHERSPOON.

To which the House agreed.

Mr. Little from the committee to whom was referred the petition of Reuben Potter, reported as follows:

And the said Potter also produced an account against his son Ellis Potter, which not being satisfactory to your committee, they submit to the consideration of the House.

By order of the committee; THOMAS LITTLE.

To the first and last part of the said report the House agreed, and to the second the House disagree.

Ordered,
Ordered, That the petitioner have leave to present a resolution agreeably to the first part of the said report, that the Treasurer give him a certificate for £150 7s 9d.

Resolved, That the Treasurer of this State be directed and authorized to pay James Board, Esq. for his and the use of Catherine Kypier, the sum of one hundred and sixty-eight pounds ten shillings, being the amount of a judgment, including costs of suit recovered against him in the Supreme Court of this State in defending a suit brought against him, as late one of the commissioners of forfeited estates for the county of Bergen, by John Mead, for property said to have belonged to a certain John Demott, a refugee from the said county, but which by the verdict of a jury and the judgment of the said court, appeared to have been the property of the said Mead; and the receipt of the said Board, shall be a sufficient voucher for the said Treasurer in the settlement of his accounts with this State.

The committee beg leave further to report the following facts, for the consideration of the House, to wit: That the county of Bergen has returned 25,688 acres of improved land less than appears to be contained in the estimate of the year 1784, and 26,664 acres more of unimproved land: That the county of Essex has returned 1,013 acres of improved land, 29,228 acres less of unimproved land, and 109 houses and lots less than in the year 1784: That the county of Gloucester has returned 15,603 acres less of unimproved land: That the county of Cape-May has returned 2,320 acres less of improved land, and 1,490 acres less of unimproved land; And that the county of Sussex has returned 41,723 acres of improved land and 137 houses and lots less than in the estimate of the year 1784. THAT as the Congress of the United States will probably provide for the payment of the Continental debts, the act for raising a revenue of £31,259 5s. per annum, for the term of twenty-five years, for the purpose of paying the interest and principal of debts due from the United States, agreeable to a recommendation of Congress of the 15th of April 1783, and for appropriating the same, passed December 20th, 1783, and the several supplements thereto, be suspended to far forth as to any further affidavits to be made under the said acts, until the first day of December next.

And whereas, the annual interest of debts due from this state to its citizens, amounts to a greater sum than the money directed to be raised for that purpose, by the act passed June the 7th 1787, will discharge.

The report of the committee appointed to settle the quotas of the several counties, was read a second time.

Ordered, That Messrs Axford, Biddle and Burgin, be a committee to enquire into the facts alleged by the members of the county of Suffix: That there was an error in the settlement of the quotas of that county in the year 1784, and report thereon to the House.

Ordered, That Messrs Axford, Dr. Elmer and Cooper, be a committee to ascertain the additional sum which the county of Middlesex would have paid as her quota of the taxes assessed within this state since the year 1784, if that county had made an accurate return of Grist mills on the last settlement of the quotas, and that such sum, when ascertained, be charged to the county.

Ordered, That the further consideration of the said report be postponed.

Mr. Witherpoon from the committee, to whom was referred the memorial of John Halfhead, Esq. reported as follows:

THAT
THAT it appears to your committee, that on the 5th day of May 1780, the said memorialist, purchased of William Manning and Ebenezer Ford, two of the commissioners of the county of Middlesex, to take charge of and sell the estate of certain fugitives, &c. a certain house and lot of land, situate in Perth-Amboy, as of the property of Michael Kearney, at a fair and open sale, for the sum of £1,775 0.

That at the time of the said sale, the said memorialist, laid out and expended large sums of money in repairing and enclosing the said house and lot of land.

That time in the month of January 1786, Mrs. Isabella Kearney had an action of ejectment tried on the said John Halfhead, to oust the said memorialist from the possession of the said house and lot; that he defended the said suit at considerable trouble and expense, when after a trial by verdict and judgment entered against him, he was in the month of April 1787, turned out of possession.

That the said memorialist, on the 22d May 1787, laid before the Legislature, whilst sitting at Burlington, a statement of the above facts, with a petition praying a reimbursement of the money expended on the said business; that the said petition was referred to a committee, who reported on the first day of June following, that the prayer of the said petitioner at that time should be granted, but did not report any sum due to him, neither did the House act any further on the said report than agree thereto.

This report we beg leave to lay before the House as an additional reason for the House to comply with the request of the said memorialist.

Upon the whole, your committee are decidedly of opinion, that the said John Halfhead well deserves the attention of the Legislature, and that a resolution ought to pass in his favor for the sum of £667 12 5.

In name of the committee,

JOHN WITHERSPOON.

Ordered, That the said report be read a second time.

The House adjourned to three o' clock, P. M.

The House met.

The petition from Silvestor Tilton, read on the 26th ultimo, was read a second time, and referred to next sitting.

Mr. Marsh from the committee, to whom was referred the petition of Samuel Potter, reported as follows:

THAT it appears by the receipts produced by Col. Potter, that he hath paid 3600 dollars in December 1777, and February 1778, for bounty to sundry substitutes for the militia of his regiment on a tour of duty; and that in conformity with the laws of the state, he imposed the sum paid by him upon the delinquents, and obtained a warrant of distraint, signed by two of the justices of the peace of the county of Essex for the collection of the same, but it appears that only 1868 dollars were collected, and consequently that 1732 dollars remained due to him, which by the scale of depreciation amounts to £431 13 6, and as it appears to
to your committee, that Col. Potter has used his endeavors to collect the sum remaining and yet due to him; but as many of the delinquents are since dead, and some removed out of the state, it has not been within his power to collect the fame, they are therefore of opinion, that he ought to be reimbursed by the state.

By order of the committee,

DANIEL MARSH.

Ordered, That the further consideration thereof be postponed.

The engrossed bill, entitled, "An Act for incorporating a certain number of the physicians and surgeons of this state, by the style and title of The Medical Society of New-Jersey," was read a third time.

the lawful money of the State, yet the particular situation of the City of Clifton, returning only in Co. thereof, waterworks the follows 17.1.1790

THAT instead of the mistake thereon, it is agreed.

Ordered. Council Chamber 23d, 1790.

THAT Mr. Martin do wait on the House of Assembly and acquaint them that the bill, entitled, "A Supplement to the act entitled, An Act enabling the owners and possessors of meadows and marshes laying on New Creek, in the county of Gloucester, to make and maintain a bank, dam and necessary waterworks to stop the tide out of said Creek, and to keep the water-courses thereof open and clear," is passed by this House without amendment.

Mr. Axford from the committee, who were directed to enquire into the facts, alleged by the members of the county of Suffolk, relative to an error in affixing the quota of that county in the year 1784, beg leave to report—

THAT on entering up the quantity of improved land in the said county in the year 1784, according to the duplicates of that year, they find that the same amounts to 204,754, instead of the quantity of 240,253, as mentioned in the general estimate of that year.

The committee further find that only 133 houses and lots were affixed in the duplicates of the said year 1784, although 241 are mentioned in the abovesaid, which last mentioned number appears to be owing to the affidavits; having incorrectly cal] up the number of acres belonging to the houses and lots and returned the same, instead of the real number of houses.

By order of the committee,

CHARLES AXFORD.

To which the House agreed.
The House adjourned till to-morrow morning nine of the clock.

THAT they have calculated with as much accuracy as possible, the advantages which the county of Middlesex derived from the abovementioned mistake during the five years past, and find that upon the several taxes imposed by the
state in said time, the said county has not paid within three hundred pounds what it would have paid, had no such mistake happened, and recommend that the House impose on the said county, the sum of seventy-five pounds yearly, for the term of four years over and above the quota which shall be allotted to her upon the general estimate of the quotas of the several counties of the state.

Mr. Rutherford from the committee, to whom was referred the consideration of the depreciation of the Copper Coin of this state, and the Treasurer's letter on that subject, reported as follows:

THAT the depreciation of the Copper Coin appears to be entirely owing to the fraudulent practices of persons who have defrauded Bermingham and Connecticut Coppers with the same impression as those of this state, and have afterwards pulled them to others: That the New-Jersey Coppers coined by law, are superior in weight to the British, are of pure metal, and weigh six pennyweight six grains each, and that most of the counterfeits are of half metal, and weigh less than five pennyweight each: That the New-Jersey Coppers lately passed at fifteen for a shilling, the rate directed by law, and the Bermingham and Connecticut Coppers could at the same time be procured for forty-five for a shilling, and that some persons have availed themselves of the difference, and have changed the impression of a considerable quantity of light and half Coppers, converting one shilling's worth of those Coppers into three shillings worth of New-Jersey Coppers, which practice has occasioned to great a depreciation of the Coppers in this state; that in some places they do not circulate, and in other places they pass at
an unequal and uncertain value, from forty-eight to thirty-six for a shilling, though they lately circulated at their full value, even in the neighbouring states where no other Coppers would pass.

2. From the above facts, the committee are of opinion, that it is necessary for the credit and interest of the state, that an enquiry should be instituted for the discovery of the persons employed in counterfeiting the Coppers in order that they may be prosecuted agreeable to law.

3. And as they conceive that the penalty is not adequate to the offence, they recommend that some ignominious punishment should be inflicted by law on those guilty of such practices in future.

4. The committee are at a loss to determine whether it would be proper to direct the Treasurer to receive the real Jersey Coppers in payment of taxes at the rate established by law, or at their current value; in the former case, a very great and an improper advantage will be given to the Revenue Officers of the state, as they will be enabled to pay forward the Copper Coin at more than double the value at which they can procure it; and in the latter case to receive the Coppers for less than they illued, would appear like a breach of faith on the part of the state; they therefore submit the subject to the consideration of the House, only observing that it will be extremely difficult and troublesome, and indeed almost impracticable to distinguish the real Jersey Coppers from the counterfeits.

5. The committee beg leave further to observe, that from the depreciation of the Coppers, and the want of small change, a practice has almost universally prevailed throughout the state, of private persons issuing notes payable to the bearer for small sums; this practice the committee conceives to be improper, the same notes do not circulate throughout the state, and are therefore inconvenient to the holders; there is no security that they will be paid on demand, and indeed there are instances of persons issuing notes, and afterwards becoming insolvent, thereby defrauding the holders who are generally of the most ignorant class, and who ought therefore more particularly to be under the protection of the Legislature—Further, the notes increase the circulating paper medium, banish the small silver coins, and are a considerable profit to those who issue them, from the great number lost or destroyed in circulation, and which profit ought to be the emolument of the state and not of individuals.

The committee therefore recommend, that a law should pass to prohibit all persons from issuing notes within this state, payable to the bearer for a les than which law would be similar to those which several European nations have found necessary to pass on the same subject.

By order of the committee,

JOHN RUTHERFURD.
